PROFESSIONAL SUMMARY

Cloud Data Engineer with hands-on experience in designing and implementing end-to-end data pipelines, ETL/ELT processes, and data warehouse solutions. Skilled in SQL, Python, data modeling, and cloud analytics. Strong foundation in dimensional modeling, data quality practices, and leveraging modern data architectures (Data Lakes, Lakehouses) for scalable analytics.

EXPERIENCE

BlueStock FinTech

Apr. 2026 – May 2026

Data Analyst Intern

Remote

- Designed ETL pipelines; applied SQL transformations for financial statement processing across companies
- Built SQL validation queries; implemented data profiling and cleansing on financial datasets
- Created multi-dimensional SQL analytics; generated investment reports with P/E, EPS, ROE metrics

Techvolt Software Pvt. Ltd.

Jun. 2025 – Jul. 2025

Full Stack Development Intern

Coimbatore, Tamil Nadu

- Integrated Python backend with MySQL; built data flow pipelines for multi-module applications
- Designed database schemas; implemented CRUD operations with data consistency management

PROJECTS

Stock Market Fundamental Analysis System

SQL, Excel, Financial Data Modeling

- Designed multi-layered pipeline; implemented star schema with fact/dimension tables
- Created SQL views for valuation metrics; built aggregation tables for trend analysis

MediRisk AI

Python, Pandas, NumPy, Scikit-learn, Flask

- Built end-to-end data pipeline; achieved 87% accuracy across 768 records with 8 features
- Implemented data cleaning, normalization, validation; deployed Flask API for real-time inference
- GitHub: github.com/Subha-Dhanusha/medirisk-ai | Live Demo: subha-dhanusha.github.io/medirisk-ai
- API: medirisk-ai.onrender.com/docs

Network Forensic Investigation System

Python, Flask

- Designed data pipeline for network packet capture; built indexed storage for evidence retrieval
- Implemented chain-of-custody tracking for data lineage and immutability
- GitHub: github.com/Subha-Dhanusha/Network-Forensic-Investigation | Live Demo: nfes-web.onrender.com

EDUCATION

Ramco Institute of Technology

Expected May 2027

B.Tech in Artificial Intelligence and Data Science, Anna University

CGPA: 8.28/10.0 | Highest Semester GPA: 8.91 | Class XII: 87.67% (April 2023)

SKILLS

Data Engineering & Warehousing: ETL/ELT Pipelines, Dimensional Modeling (Star/Snowflake Schema), Fact & Dimension Tables, SCD, Data Quality, 3-Tier Architecture

SQL & Database: Window Functions (ROW_NUMBER, RANK, DENSE_RANK, LAG, LEAD), Subqueries, Complex Joins, JSON Handling, Query Optimization, MySQL

Python & Data Processing: Pandas (DataFrames, Filtering, GroupBy, Joins), NumPy, File Handling (CSV, JSON), API Integration, Error Handling

Big Data & Analytics: PySpark, Spark SQL, Flask, Power BI, Excel (Advanced), Matplotlib

Cloud Platforms: AWS, Google Cloud Platform

Tools: Git, GitHub, VS Code, Jupyter Notebook, Docker, MySQL Workbench

ACHIEVEMENTS

- Secured First Place in Code Debugging Contest; Department Topper for three consecutive semesters
- Secretary, Neoteric AI Association – Led technical workshops and initiatives
- Joint Secretary, Department of Artificial Intelligence and Data Science

CERTIFICATIONS

- Data Analytics Certification – NASSCOM FutureSkills Prime (Wipro)
- Data Analytics – IBM
- Cloud Computing Engineering (Azure / AWS) – NASSCOM Futureskills Prime (Wipro)
- Data Visualisation – Empowering Business with Effective Insights
